

## MEDIA INFORMATION

FOR IMMEDIATE RELEASE

18<sup>th</sup> October 2010

### **NORBAR TRUKTORQUE™ AT EURO BUS EXPO**

**The new Norbar TrukTorque™ pneumatic torque multiplier is being exhibited at Euro Bus Expo 2010 (NEC Birmingham, UK 2-4 November) on the Norbar Torque Tools Stand C 66.**

TrukTorque™ features:

- Special banana shaped reaction arm to handle bolt tightening on both front and rear wheels of trucks and buses
- Accommodates wheel trims and deeply recessed wheel bolts
- None of the noise and vibration problems associated with impact wrenches
- Operates up to 1000 N.m of torque
- Lighter than a comparable impact wrench
- Designed so operator's hands can't get trapped while wheel nuts are tightened.

Philip Brodey of Norbar said: *"There are significant benefits over impact wrenches in terms of efficiency, productivity and for creating a safe, stress free environment for employees."*
